## Autumn Leaves

```
Dmi A7 Dmi
                      C7
              Gmi
The falling leaves
                         drift by my window.
                      A7
              Gmi
The falling leaves
                         of red and gold.
                      C7
                                       F
             Gmi
                         the summer kisses,
I see your lips,
                      A7
                Gmi
the sunburned hands
                         I used to hold.
[Chorus]
            Α7
                                      Dmi
Since you went away the days grow long
                                  F
                Gmi C7
And soon I'll hear old winter song
                                          Dmi/C B
              A7
                                  Dmi
       Gmi
But i miss you most of all my darling
Gmi
When autumn leaves start to fall
[solo kytara]
[Chorus]
Since you went away the days grow long
And soon I'll hear old winter song
But i miss you most of all my darling
When autumn leaves start to fall
I miss you most of all my darling
When autumn leaves start to fall
```

[solo kytara]
