# Autumn Leaves

88 bpm

[intro]
Gm D7 Gm

[solo housle – A B]

[verse 1 – A]
```
              Cm    F7                B      Eb
The falling leaves     drift by my window.
              Cm    D7                Gm
The falling leaves     of red and gold.
             Cm     F7                B     Eb
I see your lips,       the summer kisses,
               Cm  D7              Gm
the sunburned hands    I used to hold.
```

[chorus – B]
```
            D7                          Gm
Since you went away the days grow long
               Cm  F7            B     D7
And soon I'll hear old winter song
       Cm     D7                Gm    Gm/F Eb
But i miss you most of all my darling
Cm          D7                Gm
When autumn leaves start to fall
```

[solo kytara – A]

[chorus – B]

[solo kytara – A B]
